### WHITE IS SELECTED

Justice of the Supreme Court One Of the Peace Commissioners.

CHOSEN BY M'KINLEY BECAUSE HE IS A DEMOCRAT.

Washington, Aug. 23—Special—It is understood here that the president has determined to name Associate Justice White as a member of the peace commission. He is a southerner, hailing from Louisiana, and a democrat, qualifications which the president was desirous of recognizing. It is expected that all the members of the commission will be named before the president starts on his summer vacation next week. It is not yet known when the commission will meet. Spain's commissioners have already been appointed and only await a notification from this government to assemble at Paris for business.

### Aguinaldo to be Suppressed.

Washington, Aug. 23—Special—It is evident that the president does not regard the trouble at Manila as over. The sending of the Arizona with additional troops to Merritt, and the refusal to appoint Admiral Dewey as one of the peace commissioners lead to the presumption that the situation there is grave. No more trouble is apprehended from the Spaniards, but Aguinaldo is far from quiescent under the new order of things. He is an ambitious, ignorant fellow who has a strong hold upon the natives, and if he cannot rule he will endeavor to ruin the island. He will have to be repressed by a strong arm. Gen. Merritt will shortly demand his absolute surrender, and in case of his refusal will begin a vigorous warfare upon him and his supporters. As long as he remains as the head of his band tranquility in the Philippines will be impossible.

### WOMAN KILLED BY A TRAIN

Steps in Front of a Flying Passenger Train Near Woodstock.

The Fond du Lac passenger train in charge of Engineer Stephen Hotelling, of this city, struck and killed an aged lady near Woodstock, Ill. The train was north bound, and was traveling at the usual speed. On nearing Woodstock the double track system is used, and the unfortunate woman was killed as she stepped from the side track to the one on which the train was running. Warning seemed to have frightened her, for as the train neared her, she stepped directly in front of the swift running locomotive and was tossed high in the air. She was dead when the train crew reached her.

No blame is attributed to anyone. Engineer Hotelling is regarded as one of the most careful men in the service of the company.

The method of work is new to this section, and nothing is being left undone that will contribute to the making of a good street.

From Wall street to the railroad tracks the thoroughfare is about ready to receive its last dressing. The work of breaking ground was well under way today as far north as Madison street. Planing is being used for curbing purposes, and it answers the purpose at a small cost, giving the entire street an even and neat appearance.

### HAD A HOT WEATHER PICNIC

Trinity Church Sunday School Paid a Visit to Idleville

The fact that the thermometer registered as high as 93 above today seemed to have but little effect with the crowd that attended the Sunday school picnic given by the members of Trinity Episcopal church. ## AUSTRIA IS ON OUR SIDE

Official Organ Says Europe Will Not Meddle in the East.

SPAIN AND AMERICA MUST SETTLE PHILIPPINE QUESTION.

Washington, Aug. 23—Special—There is much significance attached by officials here to the declaration by the Abend Post, the official organ at Vienna, that the settlement of the Philippine question concerns the United States and Spain alone, and that European governments have no right to interfere. It indicates a determination on the part of Austria to keep out of the dispute, and knocks another of Spain's hopes in the head. Austria was the Spaniards' chief dependence in the controversy.

### Need Them In Our Business.

Washington, Aug. 23—Special—It is well understood here by intimates of the president that he has determined that the Philippines must be retained by the United States as a military necessity. The trade of this country with China and Japan has increased greatly in recent years, and yet we have no way station between those countries and our shores. Of course the annexation of Hawaii will serve as a harbor of refuge for our ships, but that is too long a distance from Asia to be of service at all times, and the Philippines will supply the want. Both for commercial and military reasons, therefore, Manila and the Island of Luzon, with perhaps the remainder of the group, will be kept for all time. This may be considered the settled policy of the administration and will be adhered to.

### Order Being Restored.

Santiago, Aug. 23—Special—The troops that have been sent to the interior for garrison duty are rapidly establishing order. **Clinton.**

Clinton, August 23—With deep selfish sorrow I wish to extend the knowledge of the fact that one of Clinton's, the state's and the world's best citizens has passed to the beyond; and all who knew John Murray lost an earthly friend when his immortal spirit left the body at 11 o'clock a. m., August 20, to join the hosts at peaceful rest. In him who sleeps the sleep of the just, all may recognize one so just and kind that selfishness was to him unknown, except as others had exhibited so much of it that honesty, and justice was unknown to them. John Murray and his brotherly brothers has exemplified to all who knew him and them to love them as true manhood is worthy of being loved, that the true Kingdom of Heaven and its righteousness is within the dome of brotherly love and eternal justice.

## Salt Rheum Has Disappeared

How It Was Cured.

"Salt rheum appeared on one of my wrists, extending nearly to the elbow. It troubled me for a year. Then it disappeared from this arm and came out on my other wrist and arm, also on my face and head and different parts of my body. The itching was beyond description. No medicine that I tried would do me any good. One day I got a bottle of Hood's Sarsaparilla and began taking it. I found it helped me. I procured another and when I had taken it the itching was relieved, and the third bottle cured the eczema on my face and head. Hood's Sarsaparilla keeps my system toned up and gives me a good appetite." C. E. HAINES, Atkin, Minnesota.

## UNCLE SAM'S NEW TERRITORY AS A RESULT OF THE WAR.

The above map shows the territory that has been or will undoubtedly be added to the United States as a result of the war with Spain—Cuba, Porto Rico, the island of Guam or Guahan, in the Ladrone, the Sandwich Islands and a coaling station and port in the Philippines. The Sandwich Islands, of course, were not wrested from Spain, but the need of them as an aid in the Manila campaign was a potent factor in bringing about their annexation.

## STORY OF THE RAILROADS.

General Showing Not So Good as that of the Previous Year.

Washington, Aug. 23.—From summaries which will appear in the tenth statistical report from the interstate commerce commission, prepared by its statistician, the following advance figures are obtained:

On June 30, 1897, there were 128 roads in the hands of receivers. These roads operated a mileage of 17,981 miles, the mileage owned by them being 14,894 miles. These figures, as compared with those of 1896, show that there was a net decrease of 12,614 miles in mileage operated, and 8,622 miles in mileage owned by roads in the charge of receivers. During the year ending June 30, 1897, 51 roads were removed from the control of receivers and 28 roads were placed under their management.

The capital stock represented by railways in the hands of receivers on June 30, 1897, was \$486,064,610; funded debt, \$531,407,790, and current liabilities, \$113,806,348. A comparison of these figures with those corresponding for the preceding year shows a decrease in capital stock represented of over \$256,000,000 and in funded debt of over \$168,000,000.

The total railway mileage in the United States was 184,423 miles.

Ninety-five per cent of the railway mileage of the country is laid with steel rails. The total number of locomotives in service was 35,986, an increase of 36 for the year. The number of passenger cars was 33,626, and of freight cars 1,221,730.

Of the total number of cars 525,286 were fitted with train brakes, the increase being 76,432, and 673,725 were fitted with automatic couplers, an increase of 113,142.

The number of men employed by the railroads of the United States on June 30, 1897, as reported, was 932,476. These figures assigned on the mileage basis show that 449 men were employed per 100 miles of line. The corresponding figures for the year 1896 were slightly larger.

## Love Feast in Arkansas.

Washington, Aug. 23.—Elaborate preparations are in progress here for the big reception and democratic love feast in honor of Senator James K. Jones and Governor Dan W. Jones on Aug. 31. This is the home of the Jones family. Many democrats of prominence in national politics have been invited to be present, and it is likely that the occasion will prove a memorable one. Senator Jones, who is now in the north, will return on Aug. 30. Dan Jones is a candidate for re-election.

## Eighty Soldiers Drowned.

London, Aug. 23.—A dispatch from Budapest to a London news agency says that yesterday, while a regiment was crossing a pontoon bridge over the river Maros, near Hód, the bridge collapsed. Three hundred men were immersed, and it is feared that eighty were drowned.

## Reducing Our Navy.

New York, Aug. 23.—The United States auxiliary naval force, which a week ago consisted of forty-one vessels in commission, says the Washington correspondent of the Tribune, was reduced to twenty-five vessels yesterday and by the end of next week it will have disappeared altogether until another war shall call it into service.

Will Leave Havana for Spain. New York, Aug. 23.—A dispatch to the Herald from Havana says: The steamer Reina Maria Christina, which some time ago ran the blockade into Cienfuegos harbor, arrived at Havana yesterday. She is preparing to sail for Spain with mail, passengers and sick soldiers.

Damaging Fire at Pennville. Portland, Ind., Aug. 23.—Fire broke out in Frank Wright's restaurant at Pennville early Monday morning, destroying a block of buildings valued at \$25,000 and causing injuries to several persons.

To Send Names of the Wounded. Washington, Aug. 23.—Adj.-Gen. Corbin has called Gen. Merritt to send a list of the wounded at Manila.

## BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

Chicago did not play yesterday, it being an open date in the local schedule. Boston finally broke its winning series by dropping a game to the Reds, who need it very much in their business. Playing for the time limit, with the game in their favor, the champions were much surprised to find the score tied in the second contest. New York, Philadelphia and Baltimore were easy winners over their western opponents, but Pittsburgh evened up on the day by taking a double-header from the Senators. No games are scheduled for today. Yesterday's scores:

At Boston—Cincinnati, 7; Boston, 2. Cincinnati, 5; Boston, 5.

At Washington—Pittsburgh, 6; Washington, 4. Pittsburgh, 3; Washington, 2.

At New York—New York, 11; Cleveland, 4.

At Baltimore—Baltimore, 6; St. Louis, 1.

At Philadelphia—Philadelphia, 18; Louisville, 9.

## Interstate League.

At Toledo—Toledo, 5; Grand Rapids, 1.

At Fort Wayne—Fort Wayne, 7; Mansfield, 4.

At Youngstown—Youngstown, 6; Newcastle, 2.

At Springfield—Dayton, 6; Springfield, 4.

At Detroit—St. Joseph, 7; Detroit, 3.

## MAY FIGHT AT MANILA.

Aguinaldo May Give Trouble to Gen. Merritt.

Washington, Aug. 23.—There is a feeling at the war department that there will be a conflict between the American forces and those of Aguinaldo. The officials who have followed the situation say that the temperament of Aguinaldo will have more to do with bringing trouble than anything else. He is hot-headed and impetuous and sees his authority waning, and the officials here think he is almost certain to make a violent effort to force the Americans to take him into consideration.

The struggle will probably come when a small armed force which he may attempt to send into the city as a test is repulsed. This would be followed by a siege of Manila and perhaps battles.

All this is having a slight effect upon the disbanding of the troops. The secretary of war and Gen. Corbin devoted the morning to going over the requests of governors as to the mustering out and later on the reports on the efficiency of the regiments were sent for. It seems very likely that more troops may be needed in the Philippines.

Returns to Illinois State Auditor. Springfield, Ill., Aug. 23.—The county clerks of the state are making their assessment returns to the state auditor and these are being tabulated for the use of the state board of equalization, which meets Sept. 13. Returns are still lacking from about a dozen counties. The Cook county report is in and shows a decrease in assessment from last year of nearly \$17,000,000. Some of the counties show an increase, while others show a decrease.

Seventh May Go Thursday. Thoroughfare, Va., Aug. 23.—If present plans remain unchanged the Seventh Illinois will leave Thoroughfare Thursday for Middletown, Pa. Gen. Davis has orders to move at least one regiment a day, and sent off the Third Missouri this afternoon. Efforts will be made to move two regiments each day, provided the railroad can furnish the transportation.

Fence Releases Workmen. Philadelphia, Aug. 23.—Notices have been posted at the Frankford arsenal to the effect that the services of all the extra men who were put to work since the outbreak of the war will be dispensed with on Sept. 1. About 700 persons are affected by the order. The reduction in force will reduce the daily output from 30,000 to 40,000 cartridges.

## Fine New Coaling Station.

Washington, Aug. 23.—The navy department expects to award the contract for the establishment of a first-class coaling station in the Samoan Islands in the course of a week or ten days, and the work will be energetically prosecuted to completion in order that the station may be utilized by American war ships early next year. Several companies have entered the competition, and no doubt is expressed that good terms will be obtained; in any event, well within a quarter of a million dollars is available for the purpose.

## Foresee Trouble for Spain.

Madrid, Aug. 23.—El Correo (ministerial organ) says: "The Cuban question may yet occasion serious incidents, as also may the interior question, which will raise difficulties it is hard to foresee." The press, notable El Heraldo, advises the government to seek to save the economic situation by means of Spanish funds instead of appealing for foreign capital, which will doubtless be offered. Such loans, however, the papers assert, will be on most burdensome terms.

## No Gold at Copper River.

Seattle, Wash., Aug. 23.—One hundred and fifty disappointed prospectors have arrived here from Copper river, Alaska, on the steamer Excelsior. The resolutions censure the booming of certain transportation companies.

## INDIANS IN WAR PAINT.

Held a Big Dance Before Going to Fight Against Spain.

Away out on the hills, beyond the Catholic cemetery, in the spot where the aborigines held their fetes before the advent of their white cousins, the Plutes are now gathered, engaged in "heap big dance." Plutes always have a reason for these festivities, and the reason for this is a singular one. In some way the Plutes learned that this nation, which is presided over by the great father at Washington, is involved in hostilities with another tribe called Spain. The Plute ideas of the present situation are very vague, but they scent a national calamity in the wind and are excited thereby. They say they want to get guns and fight Spain, and as they have always been in the habit of having "heap big dance" before going to war, so they are holding their present demonstration partly to terrify Spain and partly to show their white cousins the interest they hold in the common weal. They have no doubt that Spain will learn of their warlike attitude and be duly impressed, and they expect the white men, who are their neighbors, to be appreciative of their loyalty. Their white neighbors don't show any appreciation, however. Again the noble red man is suffering by being misunderstood. The fandango commenced night before last, and there was a great crowd of Plutes present. The beauty and chivalry of the tribe were there in war paint, and so was the white gamins and hoodlums. Sagebrush fences had been constructed in the form of a ring and outside of this ring were erected lodges, and in the center the dancing took place. Festivities commenced shortly after sundown, and after the light of day had faded the light of a huge sagebrush fire beamed over all. The bucks stood in a ring, shoulder to shoulder, pressing the palms of each other's hands close to their thighs and shuffling about in a circle the measures of a melancholy chant. Finally a noted vocalist of the tribe essayed a solo, but the white element became so annoying to the high-strung, sensitive Plute nature that Captain Sam Jack made a speech, heaping coals of fire on the heads of their tormentors by citing the fact that "Plute never go to opera-house and heap make fun white man's dance." Moreover, Sam Jack averred that the cat-calls and other undignified noise so annoyed the singer that he forgot his song and broke down, which wasn't right. Last night the white ruffianism continued to such an extent that the Plutes went into their lodges and took a hearty sleep until after their white visitors had left. Their hilarity knew no bounds. They had many dances and sang many songs, the favorite being the familiar "Nin ne ma na na, nin ne ma na," but the feature of last night's entertainment, like the Klondike wedding at the golden jubilee, was the marriage of Happy Dave to the hand-painted idol of his young heart. The fandango will continue for several evenings.

## MORE HORRORS OF LIFE IN CAMP

INSUFFICIENT NUMBER OF NURSES FOR THE SICK.

Invalids From Jacksonville Report a Lack of Proper Care for the Sick—They Leave the Hospital Before They Are Well Enough For Duty.

Four soldiers on furlough have brought back word from Company A in the last few days. Their reports add greatly to the concern felt by friends and relatives as to men in the Jacksonville camp.

Insufficient hospital accommodations and facilities form the basis of numerous complaints. The distressing sanitary condition of the camp—some what improved in the last few days, but still bad—is a subject of bitter comment.

"With 207 typhoid fever cases in the division hospital last week there were only nurses enough so that each man cared for twenty cases," said a Jacksonville physician today.

Under favorable climatic conditions we regard the constant attendance of one nurse for each patient as indispensable. The entire time of a day nurse and a night nurse is often demanded."

Gov. Scofield's Liberal Offer

When the troops went to the front Gov. Scofield offered to hire out of his own pocket enough trained nurses to care for the sick in the three Wisconsin regiments. The division officials refused to accept, declaring there was no need for trained nurses. It is now admitted that the acceptance of the generous suggestion would have reduced illness one-half, and 150 trained nurses have been summoned by telegraph from New York and Philadelphia hospitals.

No great have been the hospital hardships that the boys preferred to stay in camp and care for themselves. Boie King was stricken with fever after a twenty mile practice march. He stayed in the hospital three days and made up his mind that another three days would finish him. He put a lump of ice on his mouth just before morning inspection, and when the fever thermometer war put in his mouth his temperature appeared to be only 98. He was discharged as convalescent, and lay around camp for four days with a temperature of 102 and 103. When Shepard Sheldon, his tent mate, came down with fever a ten day furlough was secured for the two, and they went to St. Luke's hospital in Jacksonville.

## Dread the Hospital

Today's dispatches in the Milwaukee Sentinel say of the Jacksonville camp:

"The hospital is an institution that soldiers greatly fear. The men will not report to the hospital until they have to be carried there. Many of the sick ones call their own physicians from camp and large bottles of medicine are brought into camp regardless of the hospital. In Co. H there are men who act as nurses and take care of as many as five or six sick soldiers each. Then it has been known where a soldier who was so weak that he could not brush the flies off his face was left alone in the tent."

Janesville boys say sick men are lying around the camp so weak that their jaws relax and flies crawl in and out of their mouths.

John Hill, of Racine street has received word that his son, Quartermaster Sergeant Bert Hill has been sick six weeks and is in a critical condition. He starts for Jacksonville today in hopes of getting him furloughed and bringing him home.

## ALARM FOR THE SOLDIERS IN CAMP

DISEASE IS CREATING SAD HAVOC IN FIRST REGIMENT.

Enormous Percentage of the Men Are Unfit for Duty—Gov. Scofield Appeals to the Secretary of War to Remedy the Evils That Are Complicated of.

The condition of affairs in the military camp at Jacksonville continues to excite the most lively interest among the relatives of the soldiers encamped there, and the demand that they be removed from the pest-hole in which they have been placed is becoming imperative. An appeal has been made to Governor Scofield to use his influence for the investigation of some of the evils of the camp. In answer to this appeal the governor has sent the following dispatch to the secretary of war:

Madison, Wis., Aug. 22.—The Honorable, the Secretary of War, Washington, D.C.: During the past three days numerous complaints by wife and mail are pouring in upon me concerning the physical condition of the men of the First Regiment, Wisconsin Volunteers, at Jacksonville, Fla. I respectfully submit that it is imperative that either all the sick of the regiment be furloughed and sent home to be cured for; or that the regiment be removed to a more healthful location. The relatives and friends are greatly distressed because of the condition of the men.

EDWARD SCOFIELD,  
Governor of Wisconsin.

Relations Are Alarmed

Solicitude for their relatives in camp at Jacksonville led the citizens of Monroe some days ago to send a petition to the governor asking him to use his influence for the mustering out of the local company as their continuance in the service threatened their entire extermination by disease. This petition has aroused the ire of Col. Schadel, who has written Gov. Scofield declaring the petition a great injustice to the members of the regiment. He says that the health of the soldiers is better than it has been for some time. His letter is dated Aug. 15 and at that time there were 115 men in the hospital. Capt. Lewis of Racine has also written the governor saying that the petition is a reflection on the patriotism of the regiment and urging that the regiment shall not be left behind the rest in the advance of the army of occupation.

What Privates Say.

These are the views of the officers. The privates have a different tale to relate. The governor has received many letters from the private soldiers of an entirely different tenor. Some of the letters of the privates are signed, and some are anonymous, and they say that sickness is on the increase, and ask that the regiment be moved, or that some action be taken to remedy the condition of affairs. The greatest pressure is brought on Governor Scofield by parents of the soldiers who receive letters from their sons and become much worried over the condition of affairs indicated by their loved ones.

A Petition Recital.

The Jacksonville correspondent of the Milwaukee Sentinel sends an alarming letter to that paper. He says that "one-fifth of the men of the First Wisconsin are unfit for duty. This number does not include the usual quota of men suffering from minor ailments. Those unfit are either in the division hospital sick, in quarters, or convalescent at Pablo."

"The seriousness of the situation and the prospects of being ordered to Cuba when the regiment is so seriously crippled has broken all attempts on the part of the officers to reassure the men and dissipate their past reluctance to communicate the truth to relatives and friends."

"The Milwaukee battalion is now meeting with reverse and today was second in its sick list, some of the cases causing grave anxiety."

"The gloom which prevades the camp has manifested itself in many ways, and to 80 per cent of the men orders to return to Wisconsin would be hailed with delight."

"The figures that have been given for publication in regard to the health of the regiment are misleading and little faith is placed in them by the men, so far as their true representation of the condition is concerned."

Indignation at Monroe

Although Monroe is the home of Col. Schadel, his protest against public interest and sympathy in behalf of the soldiers of his regiment, is given very little weight there. In reply to private letters that have been written to Gov. Scofield, the governor says that Col. Schadel informed him in a letter written last Tuesday that the general health of the regiment is improving and that it would be doing an injustice by ordering it mustered out at the present time. It is known that the situation which has furnished the grounds for complaint has developed since that time, and the lofty attitude assumed by the colonel is not very satisfactory to his own townspeople, but quite to the contrary the indignation that has been aroused is now burning at white heat. It had been desired that the efforts of the citizens to bring about a change that would go away with the danger that now faces the troops would be advanced without criticizing the position taken by the colonel, but it is now certain that when prominent citizens of the city appear before Governor Scofield tomorrow, the commander will not be spared.

A Woman's Testimony

Monroe has been in a position of late to hear considerable from camp without depending on the reports written from there and the point has been reached when the citizens cease to listen to the officers. Mrs. D. A. Stearns, wife of Major D. A. Stearns of the First regiment, has just arrived home from Jacksonville and talks feelingly regarding the situation in camp. She is a woman who no one thinks of accusing of being prompted by a motive to misrepresent the facts. She visited the hospitals and tears came to her eyes as she tells of the suffering she found there. She never dreamed of the suffering that could take place there until she saw it herself. She says something is wrong, some one is to blame and something must be done. To her it is little wonder that the hospital and medical officers are criticized. Much as she would like to have remained with her husband, she says: "It was just horrid there and I was glad to get back."

## FLAG RAISED OVER HAWAII.

Islands Now a Portion of the American Nation.

### OUR FIRST PACIFIC OUTPOST.

Oath of Allegiance Administered to President Dole—Minister Sewall Congratulates the People on the Accomplishment of Annexation.

Honolulu, Aug. 12, via San Francisco, Aug. 23.—Hawaii is now a portion of the American nation.

Amid the booming of cannon, mingled with the cheers of the multitude and before a brilliant pageant of military and civic officials, the stars and stripes were hung to the breeze, announcing to the world the creation of the first American outpost in the Pacific.

The union of the Hawaiian islands with the United States of America was consummated at sharp noon today. The lowering of the Hawaiian flag from the main tower of the executive building and the hoisting of the star-spangled banner were accompanied with a democratic simplicity marking the most momentous occasion in the history of the country.

Deep sympathy was displayed in the faces of the immense throng at the termination of the Hawaiians as a nation, but when old glory was being hoisted the scene changed to joy and gladness, the emblem being greeted with loud and continuous cheers.

The oath of allegiance to the United States was administered by Chief Justice Judd to President Dole, as "president of Hawaii, now territory of the United States," and to Ministers Cooper, Smith, Damon and King.

Minister Sewall read a proclamation declaring Hawaii part of the United States. The proclamation further stated that President McKinley directs that the civil, judicial and military powers of the government shall continue to be exercised by the officers of the republic of Hawaii. All such officers will be required to take an oath of allegiance to the United States and renew their bonds to the United States government.

The powers of the minister of foreign affairs will cease so far as they relate to diplomatic intercourse between Hawaii and foreign nations.

The municipal legislation of Hawaii and the existing customs regulations will practically remain in force until the congress of the United States shall otherwise determine.

Following the reading of the proclamation Minister Sewall made an address congratulating the residents of Hawaii upon the accomplishment of annexation.

**Must Have High Rate of Speed.**  
Washington, Aug. 23.—Bids will be opened to-morrow at the navy department for building twelve torpedo-boats and sixteen torpedo-boat destroyers, authorized by congress on May 4 last. An examination of the chief characteristics of these vessels, one class of which is entirely wanting in the American navy, shows that the government will require of the builders the execution of the latest ideas in torpedo-boat construction and a rigid adherence to the terms of the contract. No bid will be considered which proposes to guarantee a speed of less than twenty-eight knots for the destroyers and less than twenty-six knots for the torpedo boats. The cost of each destroyer is to be not more than \$295,000 and of each boat not more than \$170,000.

**Central Pacific's First Move.**  
Washington, Aug. 23.—The Central Pacific Railway Company are preparing to submit to the commission consisting of Attorney General Griggs and Secretaries Cagle and Bliss a proposition for the refunding of the government debt. In view of Attorney General Griggs' statement, that he is at work on the complaint to be filed by the government for the foreclosure of its mortgage, and that as soon as it was finished he would begin proceedings, it will be interesting to note which gets its work in first, the railroad company or the government.

**Carterville, Ill., Is in Ashes.**  
Marion, Ill., Aug. 23.—Monday morning at 4 o'clock the citizens of Carterville were aroused by the fire alarm to find their much-prized city in a blaze. The fire originated in the rear of Lauder's saloon, on the west side of Division street, and all of the buildings from the railroad to Elles' store were completely destroyed, with the exception of Hampton's drug store. It is impossible to tell the exact loss, but it is estimated at \$100,000.

**Pension Rule Rescinded.**  
Washington, Aug. 23.—Under a decision rendered by Webster Davis, assistant secretary of the interior, the rule issued by the commissioner of pensions last November requiring claimants for pensions who reside in foreign countries to be examined before medical boards in the United States has been rescinded, and the examinations will hereafter be conducted under the supervision of American consuls abroad.

**Collide in the English Channel.**

## Lumber and Building Material . . .

Until you bring them here. More people have found this out the past year than in any previous year, and the result is these are very busy times with us. Our trade has never been so large, and by extending our force and working over-time, we have met every demand promptly. These happy conditions may be partially due to the general revival of business, but the greatest agency has been the fact that the people are learning that our material and work are better and cheaper. All we ask is a proportionate growth during 1898, and we expect it. It will be to your advantage to help the increase along.

make this claim for goodness of quality without knowing it positively to be a fact. We have seen it tested and do not hesitate to recommend it highly. I. X. L. cold water Starch has given the best satisfaction thus far with people who have used it. It's a new article and is taking wonderfully well, and as it becomes better known will take the place of other brands in Janesville homes. We bought in large enough quantity so that we were enabled to secure the jobbing price, and can make lower prices to the trade than is usual throughout the county. The regular retail price of I. X. L. Starch is 10c per package. We are putting it out 3 packages for 25c. Give I. X. L. Starch a fair trial. There will be no question as to your verdict.
